LinkedIn: <https://www.linkedin.com/in/kausali-lama/> | Portfolio: <https://kausalilama.com/>

I am a self-motivated and passionate developer with an ability to work both front and backend with a strong understanding of web development and ability to thrive in fast paced environment. Currently looking forward to work with a creative team to transform good ideas into great products.

Software Developer Trainee At Coding Dojo

Object-Oriented Programming, Design and Development / Relational Database Systems

- Completed 14-week intense course at Coding Dojo to gain insight on web fundamentals and three full technology stacks. Throughout my course I developed web applications using Python, Mean, C# ASP .NET Core MVC framework.
 - While at Coding Dojo and after completing my course I built some projects: **Trip Planner** – using Django, **Message Wall** using entity framework, **Portfolio** (without using bootstrap) which focuses on the design using node.js, **Personal Portfolio** implementing bootstrap.
-

Technical Tools

JavaScript, .Net, HTML, .Net, SQL, MS SQL Server, MySQL, JQuery, Python, Django, Node.js, Express, MongoDB, Angular, Bootstrap, Flask, MVC, Entity Framework, C#, MEAN, REST API, Responsive Design

Professional Experience

Service Desk Analyst, 07/16-04/2017 – C.H Robinson, Eden Prairie

As an Analyst my responsibility was to troubleshoot incoming incidents from end users and provided support to computer system and software. Here I worked along with the Business Analysts to improve the service quality to better assist our customers. I also had the opportunity to work with our developers, which hugely inspired me to learn programming languages.

Helpdesk Support Technician, 02/12-04/2016 – Minnesota state university, Moorhead, MN

As Technician, I monitored ticket system and assisted customers with technical issues in a call center environment. Also, Installed software on staff's computer as needed and provided assistance with hardware issues

Education

Minnesota state university, Moorhead – MN – 05/2016

Bachelor of Science in Health Services Administration; Minor in Management
